Match your skills to the job

Power Edit's advanced technology analyzes your resume against the job description and tells you which skills to add to your resume.

Keyword skills from the job description are displayed on the left sidebar. If they appear in red, they're missing from your resume. Power Edit allows you to integrate relevant skills into your resume *without* re-uploading a modified file.
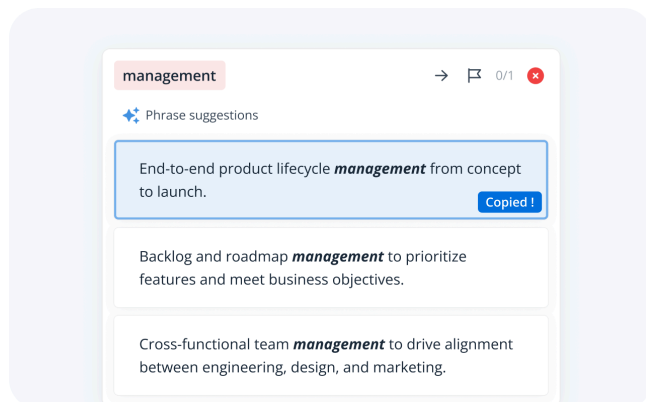

How Power Edit works:

1   **Upload your resume and the job description.**

2   **Add the job title and the company you're targeting.**

3   **Choose Power Edit.**

4   **View AI-generated suggestions to enhance your resume.**

5   **Edit within your browser to increase your match score.**
